The SnowPro Core Certification Exam demonstrates an individual's knowledge to apply specific core expertise implementing and migrating to Snowflake. A SnowPro Core Certified individual has a thorough understanding of the Snowflake's Platform, and has the knowledge necessary to design, develop, and manage secure, scalable Snowflake solutions to drive business objectives.

- Perform data loading and transformation
- Monitor and optimize virtual warehouse performance and concurrencies
- Execute DDL and DML queries
- Use structured, semi-structured, and unstructured data
- Use cloning, Time Travel, and Fail-safe to manage data
- Facilitate Secure Data Sharing among different Snowflake accounts
- Design and manage the structure of a Snowflake account
